KORG Tuner

2037 Korg CA-40 Chromatic Tuner

Size 10 x 6,5 x 1,5 cm

- A compact chromatic tuner, ideal for use with brass band or orchestra.
- Larger and more easily readable high-precision LCD needle-style meter.
- Wide detection range from A0~C8.
- Calibration function that accommodates a variety of concert pitches.
- Sound Out function that lets you produce a reference tone from the internal speaker. The tuner will remember the pitch you select.
- Bypass function.
- Auto Power Off function saves the battery even if you forget to turn off the tuner.
- Memory Backup function.
- Approximately 85 hours of continuous use.

20371 Korg GA-40

Size: 10 x 6,7 x 1,7 cm

The Electric Guitar and Bass Tuner with Superior Tuning Abilities!

With superior features like a large, easy-to-see, LCD needle-style display, the Korg GA-40 is a dedicated electric guitar tuner with a great value!

20372 Korg GT-4

Guitar Tuner size: 6,1 x 6,5 x 2,2 cm

Korg GT-4 - The Unique and High-Performance Guitar and Bass Tuner!

Features:

- A compact, unique and high-performance dedicated bass and guitar tuner
- Choose from three different tuning modes: Strobe mode, Mirror mode, and Meter mode
- Quinta-flat tuning mode allows dropped tuning between one and five semitones
- Supports seven-string guitars and six-string basses
- Built-in condenser microphone supports acoustic guitars

Art. 2038 Korg TM-40 Tuner /Metronome
Size 11 x 7,5 x 1,5 cm

Excellent functionality and a wide detection range

With a detection range of C1 (32.70 Hz)~C8 (4186.01 Hz), the TM-40 provides quick and accurate coverage of a wide spectrum of notes and pitches for wind, string, keyboard and most other instruments. Even low-pitched instruments with complex overtone structures are detected with the precision you expect from Korg. A built-in high-sensitivity mic allows acoustic instruments such as guitar and ukulele to be tuned easily and accurately, and the separately sold CM-100 contact mic can be used to send the vibrations directly to the tuner for even greater precision.

Art. 2039 Korg OT-120
Size 12 x 7 x 2,5 cm

- Chromatic tuner with a wide detection range that supports the instruments used in an orchestra or brass band.
- Dual display provides both a needle-type meter and an LCD for excellent visibility.
- Korg's proprietary Sound Back mode* plays a reference pitch for the note that's closest to the input pitch. The meter indicates the discrepancy between the input and the correct pitch. (When using the separately sold CM-100.)
- Multi Temperament supports historical tuning systems.
- Transpose mode is convenient for wind instruments.
- Choose from three levels of needle response speed.
- Both auto and manual tuning modes are provided.
- Reference tone generation in a five octave range.
- Broad range of calibration adjustment (349 Hz--499 Hz).
- Built-in mic supports acoustic instruments.
- Energy-saving design for long battery life (approximately 100 hours or greater).
- Suede-tone soft case included.

Cleaning, sealing, care

- ◆ cleans without being greasy
- ◆ maintains and seals
- ◆ repaired, closes scratch and microinjuries
- ◆ removes and protects against hand sweat
- ◆ prevents the connection of environmental dirt, skin fat and dust on the instrument
- ◆ prevents reliably electrostatic loading
- ◆ dust and dirt looks unfriendly
- ◆ looks biological, is not toxic
- ◆ has no negative influence on our environment
- ◆ is produced absolutely environmentally acceptable
- ◆ breaks up after the use in short time biologically
- ◆ works without solvent, alcohol and fuel gas

8128 Microfibre cloth Stretch 40x40 cm

8130 Tro-Fex Felt optimizer 100 ml

The advantages:

- Reduced frictional resistance between key bushing felt and pins, thereby a more pleasant play feeling
- Raised protection from humidity, thereby the best possible security before sticking keys
- Noise reduction at the pins
- Very exact arrangement of the Front bushing.

Steinway cleaner and male nurse
