REV 00 of 20.10.2012

BORMA SOLVE

Thinner for wood filler

DESCRIPTION:

Dilution for BORMA HOLMASSE.

The product has the characteristic of regenerating the dry wood filler.

CHEMICAL/PHYSICAL CHARACTERISTICS:

Appearance :	liquid
Colour :	colourless
Odour :	characteristic
Flammability point :	2° - 21°C
Self-ignition point :	370°C
Dry residual:	0 %
Specific weight:	0.850 Kg/Lt
Solubility in water:	partially soluble

HOW TO USE:

Add BORMA SOLVE to the wood filler BORMA HOLZMASSE so that you obtain the required dilution depending if one wants a spray product or a brush application.

STORAGE:

Keep in a clean, well ventilated area, away from heat sources and direct sunlight and possibly between a temperature of 5°C and maximum of 35°C.

Try to keep the product in it's original containers.

Avoid contact with other materials that could result incompatible.

PACKAGING:

The product comes in tins of 500ml, 1 litre and 5 litres.

WARNING:

Our technical sheets are compiled on the bases of results of our tests. Nevertheless our technical advice is given in good faith, but without a guarantee. Indeed different supports, conditions, applications, installations, dilutions are integrating parts of the final result and often beyond every control. The user must test the supplied products to verify if it is adaptable for his/her needs.

We can guarantee the continuity of the physical and chemical characteristics.
